REST API
AUTOMATION

TestLeaf
Always Ahead

We have over 10 years of training experience in this area of automation, specially with API / Web Services and we strive to achieve the following: develop, empower, enable and maintain API test automation for our learners.

COACHES & MENTORS

Our high expectations in the market demand exceptional commitment. For every hour of class time, an TestLeaf mentors dedicates many hours of preparation that includes individual case review, building real-time scripts and lessons plans, and collaborative analysis among other leaders.

Our trainers dedication is motivated by its reward: an exciting, energized classroom that's thoughtfully choreographed, yet open to unexpected insights and understanding.

TRAINING EXPERIENCE

TestLeaf is not a final destination, but a transformative experience that won't end when you complete the program. Every learner' journey is different, which is why we provide personalized support to help the learner make an impact for years to come.

History & Mission

TestLeaf started up in 2009, and we've been on an epic ride ever since. From our beginnings as an test automation training company to launching the hot product 'Tuna' – the sophisticated selenium by product, we've tried to stay true to our core beliefs and to deliver an exceptional experience for our customers and learners.

TestLeaf is an pure play test automation training and consulting factory, and we love what we do. It's who we are. As an agile team working side by side, we aspire for the designed life: a place where work, life and inspiration are all equal and integrated organically

The usual test for a statement of fact is verifiability, that is, whether it can be demonstrated to correspond to experience.
